

ECEC Services

MiStaffing connects early childhood education and care services with qualified educators looking for employment. We have recently extended our services to include assisting families working at home and in essential services with childcare@home.

What is childcare@home?

childcare@home assists families of early learning and OOSH services who have chosen to keep their child at home during the COVID-19 pandemic, with professional learning and support services in their own home.

What are the benefits?

childcare@home ensures that your educators are supported financially without having to source work through direct competitors in the market.

childcare@home also supports your families who choose to keep their children at home, with the option to engage with a qualified educators during the current pandemic.

How does it work?

Families and Educators are invited to download the MiStaffing app and complete their individual profiles. Once approved, families are able to log shifts via the jobs page in the app. These shifts then match directly to educators who meet the criteria and are seeking work. Educators are then able to apply to a position and be approved by the family for the shift.

Services can chose to either only show their available educators to their families or open their educators up to the full market of families looking for support.

What's my liability?

As the agreement lies between the family and the educator there is no liability to an organisation.

How do we communicate with our families and educators?

Communication is easy. MiStaffing works in collaboration with you to ensure the most efficient, effective and appropriate way to communicate. We assist with providing online tutorials, FAQ and 24/7 support. MiStaffing will dedicate an account manager to assist you every step of the way.

How do you manage COVID-19 threat to educators/families?

Families and educators are required to read and accept our COVID-19 policy. In addition, prior to any shift commencing, all participants must agree to the COVID-19 status checklist which ensures that all current best practices are being adhered to. Our Educators have also been advised to complete the COVID-19 infection control training recommended by the Dept. of Health for frontline workers.

How much does it cost?

childcare@home is currently free to all ECEC and OOSH services. Payments occur directly between families and educators (at a rate set by the family) using a secure payment gateway - Stripe. At the end of a shift when the hours of work are confirmed, payment is calculated and made instantly.
